

Plant Biology Department Guidance Committee Report

Student: _____

Student's Year: _____

Major Professor: _____

Meeting Date: _____

Committee Member Reporter: _____

To be completed by a committee member (not the major professor) during or immediately after the meeting. Students should circulate the completed report to all committee members and CC the Graduate Secretary who will file it in the student's annual review folder. For extra space please write on the back or attach a separate letter.

1. In what areas is the student making satisfactory progress or making improvements based on previous feedback? (please consider both research & career goals).

2. In what areas could the student improve? If any of these areas could hinder the student's progress towards obtaining their degree (consider timeline), please also suggest remedial actions.

3. What is the student doing to progress toward their career goals? If progress is lacking, list specific suggestions for improvements: (not needed for comprehensive exam meetings)

Signatures of Committee Members:
