

Professional and Career Development Requirement  
Michigan State University Plant Biology Department

A student must complete at least 3 activities throughout their program that represent growth in professional or career development. The activities to fulfill this requirement are agreed upon by each student and their Guidance Committee. In your descriptions below, please include the name of the activity, the date completed, and how the activity helped you grow in your professional and career development. As this is a graduation requirement, this form must be completed and submitted to the Academic Program Coordinator at least one month prior to graduation.

Name:

Activity 1:

Activity 2:

Activity 3:
